

# Horizon 2020 Energy Efficiency

As part of Horizon 2020's energy challenge for secure, clean and efficient energy for Europe, the European Union launched 44 new projects under the Call 2016 to support Europe's transition to a more energy efficient future.

## A FEW PROJECTS...

**Consumers**  
**8** Projects

Reducing energy consumption of vulnerable consumers through **support from Energy Advisors**

2gether4vulnerability: a coordination & support action by Italy & 5 other countries

**Heating and cooling**  
**7** Projects

Next generation of **low exergy heating and cooling systems**

LowUP: a research & innovation action by Spain & 6 other countries

**Buildings**  
**13** Projects

New and proven approaches to **cost reduction of Nearly Zero Energy Buildings (NZEBs)** at all stages of the life cycle

CRAVEzero: a coordination & support action by Austria & 8 other countries

**Local authorities**  
**2** Projects

The first peer to peer programme for getting local authorities' **capacity boosted for the energy transition**

PROSPECT: a coordination & support action by The Netherlands & 6 other countries

**Industry and products**  
**4** Projects

A standard, modular **solution for heat recovery and thermal storage** in secondary aluminium recycling and ceramic processing

Smartrec: an innovation action by the United Kingdom & 8 other countries

**Innovative financing**  
**10** Projects

**Project development assistance** to launch €20M of sustainable energy investments in 116 municipal buildings and street lighting by applying bundling and innovative financing

PRODESA: a coordination & support action in Greece (Athens Metropolitan Area)
