Unit D1 - LIFE Energy + LIFE Climate

European Climate, Infrastructure and Environment Executive Agency (CINEA)

Key contribution to European Green Deal

- Implementing the new portfolio will support the European Green Deal - the roadmap for making the EU's economy sustainable
- Boosting the efficient use of resources by moving to a clean circular economy, restore biodiversity, cut pollution, and achieve climate neutrality by 2050

H2020 EE legacy

LIFE- Clean Energy Transition (CET)

- ✓ Continuation of market uptake Coordination and Support Actions under Horizon 2020- Energy Efficiency
- ✓ 7 years budget of almost €1 bn

LIFE- CLEAN ENERGY TRANSITION

AREAS OF INTERVENTION

Building a national, regional and local **policy framework** supporting the clean energy transition

Accelerating technology roll-out, digitalisation, **new markets, services and business models** and enhancement of the related professional skills on the market

Attracting private **financing** for sustainable energy

Supporting the development of local and regional **projects**

Involving and **empowering citizens** in the clean energy transition

European
Commission

LIFE Clean Energy Transition (CET) – Call 2021

- First Call open with 18 topics
- EUR 95 million available
- Deadline 12 January 2022
- 170 proposals received
- Next LIFE Calls for proposals publication date: expected 17th of May 2022

https://cinea.ec.europa.eu/life/clean-energy-transition_en

Addressing energy poverty

Policy relevance

- Support the implementation of provisions related to energy poverty (Clean Energy for All Europeans package, EED, EPBD, Renovation Wave)
- Address acute housing affordability challenge in Europe
- Knowledge sharing and local level support via the Energy Poverty Advisory Hub

Priorities

- Facilitate energy efficient behaviour change and investments for energy poor households
- Transform inefficient housing stock in vulnerable districts
- Foster collaboration between key actors (public authorities, social actors, NGOs, utilities)
- Develop and identify best practices and policy recommendations

Past and ongoing relevant projects

Approaches under IEE & H2020

- Supporting energy poor consumers in the **adoption of more energy efficient behaviours** through energy advice and low-cost measures (e.g. SAVES2, STEP-IN, ASSIST, SMART-UP, EmpowerMed, STEP)
- Facilitating EE and RES **collective and cooperative action** for the benefit of energy poor households (e.g. POWERPOOR, POWER UP!)
- Setting up **alternative financing models** geared towards supporting energy poor household investments (e.g. SCORE)
- Supporting **energy efficiency measures at the building level** (e.g. ComAct)
- Setting up and supporting **innovative schemes by obligated parties** under Art 7 EED (e.g. SocialWatt, ENPOR)

LIFE-2021-CET-ENERPOV Addressing building related interventions for vulnerable districts

Facilitate uptake of renovation approaches for large-scale rollout of building-related interventions

Roll out holistic, industrialised deep renovation solutions

Develop and implement roadmaps of EE measures

Develop and implement roadmaps of EE measures for social housing specifically

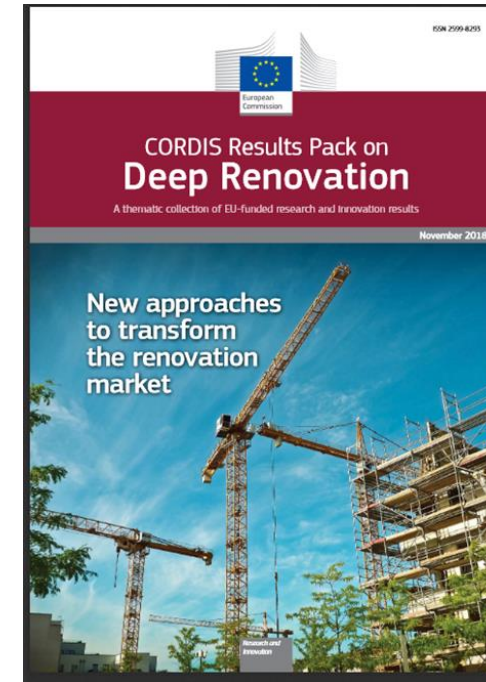

Examples of previous and ongoing initiatives

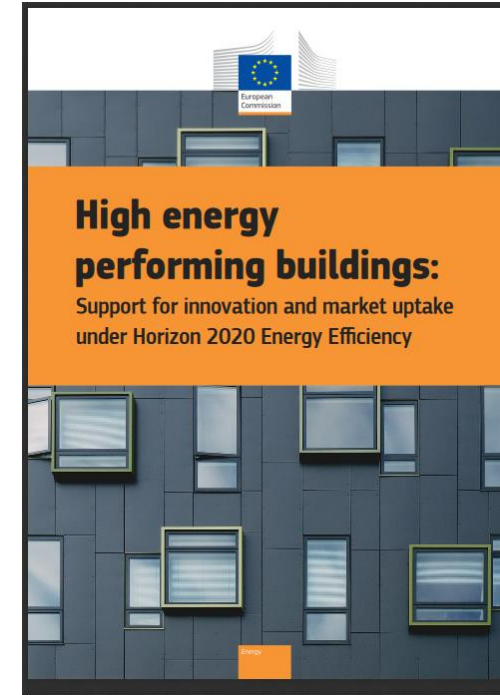

Affordable Housing Initiative

EU
ENERGY POVERTY
Observatory
