

# Energy Auditors Competences, Training and Profiles (ENACT)

ENACT is an European project which aims to contribute to the definition and implementation of a common frame of the green professional qualification and competences of Energy Auditors (according to the European Directive 2010/31/EU - EPBD recast), defining the skills and professional profile at European level of an expert on energy issues and to meet the Article 17 on the independent experts.

ENACT, funded under the <u>Erasmus+</u> programme (Convention No. 2014-1-IT01-KA202-002672), was launched September 1, 2014 and has a duration of two years.

### **Objectives**

The project aims to define at European level the competences and the profile of an energy expert called "ENACT energy auditor", i.e. a professional figure that can carry out an energy audit of a building, releasing a certification with the measures proposals for efficiency and also following the implementation of works to do.

**ENACT** is a research project to analyze the legislation and the situation in the various European countries concerning professional figures in the sector of energy auditing, basing on comparative analysis, to define common competences an European figure.

The project addresses both to energy operators, potential ENACT energy auditors, and to institutions of professional training as well as to all stakeholders, by accreditation bodies to consumer associations.

Six company from four different European country are involved in the project, coordinated from **Aisfor**.
